NORTHAMPTON

Amazing coffee
& tea shops

Eclectic shopping

Cozy restaurants,
breweries, & great
entertainment

This review sums up what we've been hearing...

This is just a quick observation about NETA... First the reason I gave them a 5 star review is because it's basically flawless and YELP won't let me give them a 6. But there's always something to be said that may not be so flattering. I've thought hard about this so here goes the negative. New England Treatment Access' only downfall is that they are so professional, have such an amazing product line, customer service darn near perfection that the other dispensaries in MA cannot compete. They have left nothing to chance. Most importantly, they stand behind their products 100%... NETA is in it to win it. By that I mean being #1 in its kind of business. They are going long and I'm going with them. There is undeniable family ambience as soon as you walk in. Mind blown.
